The American Dahlia Society announces the 2015 trial garden winners of the Derrill W. Hart Medal and Evie Gullikson Medal. The ADS has established trial gardens in various regions of the country for dahlia promotion, evaluation, and scoring of undissemated cultivars. For cultivars that achieve a score of 85 or more in three or more trial gardens a medal is awarded to those having the highest average trial garden score in each category. These dahlias will be introduced as new varieties for 2016 with the added designation of being medal winners.

**Derrill W. Hart Medal trial garden winners:**

Mother's Love, Large, Informal Decorative, Light Blend, hybridized by Meggos.
